

# The World's Most Accurate, Fastest Test for Screening & Investigations

## EyeDetect: A New Way to "Look" at Lie Detection

EyeDetect is the first **nonintrusive** lie detection technology that accurately detects deception in 15-30 minutes by analyzing eye and other behaviors. It can now be used not only for screening tests but also diagnostic (single-issue) testing for criminal or civil cases.

### Highly Accurate

Scientifically validated at 86-90%.

### Fast

Test takes only 15-30 minutes; results in less than 5 minutes.

### Noninvasive

No cables or sensors attached to examinees.

## How this Revolutionary Lie Detection Test Works

- 1 Examinee takes a 15- to 30-minute true/false test.
- 2 Data are captured, encrypted and uploaded to a secure server in the cloud.
- 3 Proprietary algorithms provide a credible or deceptive score in less than 5 minutes.

## Ideal for Screening & Single-Issue Testing

- Job Candidates | Employees\*
- Security and Law Enforcement Personnel
- Parolees | Probationers
- Criminal Suspects | Civil Case Participants
- Spouses/Significant Others

## Benefits for Polygraph Examiners, Private Investigators

- Quickly screen large groups
- Validate results with a secondary test

\* The Employee Polygraph Protection Act (EPPA) prohibits using lie detectors like EyeDetect in private companies. However, federal, state and municipal government employees or contractors may be tested.
