

The Next-Generation Lie Detector: Fast, Affordable & Accurate

EyeDetect: A New Way to “Look” at Lie Detection

EyeDetect is the first nonintrusive lie detection technology that accurately detects deception in 15-30 minutes by analyzing eye and other behaviors. It can now be used not only for screening tests but also diagnostic (single-issue) testing for criminal or civil cases.

Fast

Test takes only 15-30 minutes; results in less than 5 minutes.

Affordable

Less than half the cost of polygraph.

Highly Accurate

Scientifically validated at 86-90%.

How it Works

1

Examinee takes a 15- to 30-minute true/false test.

2

Data are captured, encrypted and uploaded to a secure server in the cloud.

3

Proprietary algorithms provide a credible or deceptive score in less than 5 minutes.

Who Uses EyeDetect?

EyeDetect is currently used by more than 500 customers in 43 countries, including 50 U.S. state and local law enforcement agencies.

Customers include:

- Governments
- Law enforcement
- Depts. of corrections
- Investigators
- Attorneys
- Therapists
- And private companies

* The Employee Polygraph Protection Act (EPPA) prohibits using lie detectors like EyeDetect in private companies. However, federal, state and municipal government employees or contractors may be tested.
