TECHNOLOGY/LIFE SCIENCES

• **Converus**, Lehi, has hired **Mark Handler** as director of professional services. Converus makes a lie detection technology called "EyeDetect." Handler's duties will include managing professional services, such as consult-

ing and training, as well as technical product management. A former police officer and polygraph examiner, Handler started his cred-

Mark Handler

ibility assessment career in 2003. He will retain his current roles as the American Association of Police Polygraphists' research and information chairman, American Polygraph Association board member, and as an independent polygraph instructor.
