Message from Converus President and CEO

Advanced EyeDetect Training & Certification

If you work with EyeDetect and want to significantly enhance your knowledge and test writing skills, consider attending our [advanced training](#). If you've already been trained in the basics of test administration and using the Dashboard, the next logical step is advanced training.

Since 2015, we've trained more than 30 federal government agencies worldwide, including a U.S. federal government agency and government agencies from Jamaica, Canada, Mexico, Colombia, Singapore, Czechoslovakia, India, the Caribbean, and Middle East. We've also trained state and local U.S. law enforcement agencies.

Providing quality training in the world's most innovative credibility assessment technologies helps solidify Converus as a leader in this industry.

Choose Your Training and Location

EyeDetect training is available:

1. **Online** – involves viewing training videos online; some training includes practical exercises.
2. **Onsite** – includes 3 days of training at your facility for up to 12 people.
3. **At Converus** – get trained in picturesque Utah at our headquarters; advanced training is scheduled this month and again in September.

The courses currently offered are:

Standard EyeDetect Training – This class includes Test Proctor and Dashboard Administrator training (to administer EyeDetect tests and interpret test results). When participating with a Converus instructor, advanced topics that are reviewed include base rates, algorithms, successive hurdles, validation studies, and more.

Advanced EyeDetect Training: Relevant-Comparison Test (RCT) and new Multi-issue Comparison Test (MCT) Protocols – This class reviews the RCT and MCT protocols, which are commonly used for screening tests. Participants can certify to write their own tests. Pre-requisite: Standard EyeDetect Training

Advanced Training: Directed Lie Comparison (DLC) Test Protocol – This class reviews the DLC protocol which is commonly used for diagnostic tests. Participants can certify to write their own tests. Pre-requisite: Standard EyeDetect Training

Certifications Available

As you successfully complete these training courses, you can earn the following certifications:

- CTP – Certified Test Proctor
- CDA – Certified Dashboard administrator
- CSTW – Certified Screening Test Writer
- CDTW – Certified Diagnostic Test Writer

If you pass all four courses, you'll earn what will soon become one of the most prestigious recognitions in the lie detection industry: **Converus Credibility Assessment Expert (CCAEE)**.

Please [click here](#) for pricing and additional details on our EyeDetect training courses. To register for any courses, [email Ashley](#).

About Converus

Converus provides scientifically validated credibility assessment technologies. EyeDetect® detects deception at 86-90% accuracy in 15-30 minutes by analyzing eye and other behaviors. IdentityDetect® detects falsified identities at 91% accuracy in about 1-3 minutes by analyzing subtle variations in the somatic nervous system. IntegrityDetect® identifies the most trustworthy individuals at 80% accuracy in 6 minutes by analyzing a person's implicit associations. These technologies help protect countries, corporations and communities from corruption, crime and threats. Converus is headquartered in Lehi, Utah, USA. Visit: www.converus.com
