Message from Converus President and CEO

Record Number of EyeDetect Tests Processed New Video: Idaho State Police Success Story

Interest and support in EyeDetect remain strong. This week we attended the 54th American Polygraph Association Seminar in Orlando, Florida. It's a great event that puts EyeDetect in front of a group of talented credibility assessment experts from around the world. Interest in learning more about EyeDetect from attendees at this year's event has been extremely high.

Record Number of EyeDetect Tests

As of August 23, Converus processed more EyeDetect tests this year *than the previous 2 years combined*. At our current rate, there will be a 300% increase in the number of tests processed in 2019 than in 2018.

Thanks to our Converus Service Partners, customers, staff and others for the contributions you're making to not only reach this milestone but to also deliver a meaningful and valuable credibility assessment solution to the world.

Idaho State Police Lieutenant Shares EyeDetect Benefits

How can EyeDetect help law enforcement identify higher-quality job candidates? Lt. Matthew Sly of the Idaho State Police answers this question in a new video. Watch it [here](#).

Lieutenant Sly is a trained polygraph examiner who was hesitant at first to consider an additional lie detection technology. He said, "I think oftentimes we're our biggest enemy when it comes to doing our job because we get comfortable and familiar with doing things a certain way. But we need to be able to adjust with the times."

Thank you, Lieutenant Sly and the Idaho State Police, for sharing your experience regarding EyeDetect.

Welcome New Service Partners

Training in Canada

EyeDetect is on a Roll!

Helga LaPollo, owner of Florida Truth Verification, Inc., recently joined as a Converus Service Partner. In no time she took EyeDetect's already mobile ability to a new level. She purchased a van previously equipped with an office and modified it slightly to turn it into an EyeDetect testing center — on wheels.

With over 35 years of professional experience, Helga is a seasoned credibility assessment expert. She graduated in 1983 from the Academy of Polygraph Science and Methodology in Charlotte, North Carolina, and has been very active in the polygraph community over the years. She also speaks 5 languages. Welcome to the Converus Team, Helga!

About Converus

Converus provides scientifically validated credibility assessment technologies. EyeDetect® detects deception at 86-90% accuracy in 15-30 minutes by analyzing eye and other behaviors. IdentityDetect® detects falsified identities at 91% accuracy in about 1-3 minutes by analyzing subtle variations in the somatic nervous system.

IntegrityDetect® identifies the most trustworthy individuals at 80% accuracy in 6 minutes by analyzing a person's implicit associations. These technologies help protect countries, corporations and communities from corruption, crime and threats. Converus is headquartered in Lehi, Utah, USA. Visit: www.converus.com
