EyeDetect® IdentityDetect®

December 2020

Message from Converus President and CEO

Thanks to You, Converus Achieved Many Successes this Year

Hi,

Despite the obvious unexpected challenges in 2020, Converus weathered the pandemic and achieved many great successes this year. The number of customers running EyeDetect tests monthly have now returned to pre-pandemic levels.

But none of that would have been possible without your support.

I #givethanks to existing customers, new customers that adopted EyeDetect, to our 100+ Converus Service Partners dispersed throughout the world, to the press that raised awareness of EyeDetect by reporting on it, and to our dedicated staff. I appreciate all of you.

With COVID-19 vaccines imminent, there's great hope for 2021 being a great economic recovery year for all. On behalf of Converus, I wish you a Merry Christmas/Happy Holidays and great success this New Year. May you and your loved ones stay safe and healthy this holiday season.

New Private Security Company Case Study

We just received a great case study from, Action Security, a Panama-based private security company. They're having fantastic results using EyeDetect to reduce turnover and to decrease incidents among staff — which allows them to provide better customer service. Read the case study [here](#).

Speaking of security firms, be sure to read our [full-page story](#) in this month's issue of Security Today.

New Service Partner

A warm welcome to Tactical Force Training and Security (TX) our newest Converus Service Partner.

We continue to attract the best of the best in the credibility assessment industry. (Want to become a Converus Service Partner? Click [here](#).)

Click your email "forward" button to send this email to others interested in credibility assessment. And please share industry news with us! We'd love to hear from you. Email: info@converus.com.

About Converus

Converus provides scientifically validated credibility assessment technologies. EyeDetect® detects deception at 86-90% accuracy in 15-30 minutes by analyzing eye and other behaviors. IdentityDetect® detects falsified identities at 91% accuracy in about 1-3 minutes by analyzing subtle variations in the somatic nervous system. These technologies help protect countries, corporations and communities from corruption, crime and threats. Converus is headquartered in Lehi, Utah, USA. Visit: www.converus.com
