## Message from Converus President and CEO

### Sheriff's Office Uses EyeDetect with Polygraph to Make Better Hires and Cut Costs

Hi,

An ever-increasing number of law enforcement agencies are adopting EyeDetect to streamline hiring. The Bernalillo County Sheriff's Office in New Mexico is one of the latest to do so.

With EyeDetect and polygraph as part of the screening process, they quickly removed applicants with disqualifying previous activities prior to undergoing further investigation, saving the agency thousands of dollars. Read the case study [here](#) and the press release [here](#).

#### Free Upcoming Training, Annual Conference

Our next EyeDetect Standard & Advanced Training is next week on March 1-3, 2022. This gives you an opportunity to hone your skills and learn more about the latest EyeDetect software and hardware updates. [Click to register or see the agenda](#). (This course will also be offered in Spanish on March 29-31. [Click to register or see the agenda](#).)

CONNECT '22, our 8th annual Converus conference, is April 26-28, 2022. It's for customers, Service Partners, credibility assessment experts, and anyone interested in learning more about the latest advancements in lie detection technology. (April 28 is for Service Partners only.) [Click to register or see the agenda](#).

If you're not an EyeDetect customer yet, these two free events are ideal to learn more about the latest evolution in lie detection technology and how it can help you more quickly and cost effectively screen job applicants or conduct investigations.

Due to Covid, these events will be held virtually using MS Teams.

#### EyeDetect Now GSA Approved

Converus was recently awarded a five-year GSA (General Services Administration) Schedule contract with the U.S. federal government. With this award, U.S. federal and state agencies can now purchase [EyeDetect](#) hardware and software and related training and services via this pre-negotiated contract from Converus without having to go to bid. Read the press release [here](#).

#### New Service Partners

A warm welcome to our new Converus Service Partners:

- Pacific Polygraph (Washington)
- XSPec Technology Sdn. Bhd. (Malaysia)

We continue to attract the best of the best in the credibility assessment industry. (Want to become a Converus Service Partner? [Click here](#).)

Click your email "forward" button to send this email to others interested in credibility assessment. And please share industry news with us! We'd love to hear from you. Email: [info@converus.com](mailto:info@converus.com).

## About Converus

Converus provides scientifically validated credibility assessment technologies. EyeDetect®, which detects deception by measuring involuntary eye behavior, is a fast, accurate, affordable, noncontact, scalable, and fully automated option to polygraph. EyeDetect+ is the world's first automated polygraph, making the testing process impartial, accurate, and less intrusive (than a traditional polygraph). It assesses credibility by monitoring and recording ocular activity plus physiological activity similar to a traditional polygraph. Customers worldwide use the EyeDetect product line for screening and investigations to help protect countries, corporations and communities from corruption, crime and threats. Converus is headquartered in Lehi, Utah, USA. Visit: [converus.com](http://converus.com)
