Message from Converus President and CEO

VerifEye: A Multi-use Mobile Truth Verification App

Hi,

Last March we announced [VerifEye](#), the world's first truth verification app. VerifEye is a mobile app for Apple or Android phones that quickly and accurately validates truth by measuring involuntary eye behavior. VerifEye tests can be self-administered or proctored from a mobile phone in about 10 minutes in almost any language.

Since its initial release, we've made significant improvements and updates to VerifEye based on customer feedback and use. In recent months, I've met with more than 20 VerifEye customers in seven countries who successfully run VerifEye tests daily.

As last month's newsletter mentioned, two of the most common use cases for VerifEye are [pre-employment screening](#) and [credit risk verification](#). Check out the newly created, 2-minute videos on these use cases to learn more:

- [VerifEye Credit Risk Verification video](#)

Test Drive VerifEye

Do you want to experience VerifEye for yourself? It's easy. Using your phone, simply:

1. Go to the app store
2. Download and open the VerifEye app
3. Click on "Tests" at the bottom of the home screen
4. Click on "Take Demo Test"

Alternatively, send an email to info@Converus.com to schedule a VerifEye demo or to enquire about a free, no-obligation VerifEye test drive for your organization.

New Service Partners

A warm welcome to our new Converus Service Partners:

- Comtecom (Mexico)
- Fes Tung (Ecuador)
- Gestion de Talento (Mexico)
- Pax Mantis (Mexico)
- Poligrafia Panama (Panama)

We continue to attract the best of the best in the credibility assessment industry. (Want to become a Converus Service Partner? Click [here](#).)

Click your email "forward" button to send this email to others interested in credibility assessment. And please share industry news with us! We'd love to hear from you. Email: info@converus.com.

We have had inquiries about attending an in-person training. If you are interested, please click [here](#).

About Converus

Converus provides scientifically validated credibility assessment technologies. [VerifEye™](#) is the world's first mobile app to help organizations or individuals accurately verify the truth about a person — including background, identity, creditworthiness and claims — in about 10 minutes. [EyeDetect®](#), which detects deception by measuring involuntary eye behavior, is a fast, accurate, affordable, noncontact, scalable, and fully automated option to polygraph. [EyeDetect+](#) is the world's first automated polygraph, making the testing process impartial, accurate, and less intrusive (than a traditional polygraph). It assesses credibility by monitoring and recording ocular activity plus physiological activity similar to a traditional polygraph. Customers worldwide use the EyeDetect product line for screening and investigations to help protect countries, corporations and communities from corruption, crime and threats. Converus is headquartered in Lehi, Utah, USA. Visit: converus.com
