

# Hire with confidence. Reduce risk.

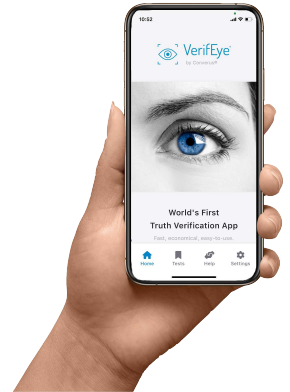

VerifEye is the first mobile app powered by AI that accurately detects lies through involuntary eye movements.

It can quickly identify dishonest job applicants and employees.

Empower your organization in hiring decisions and reduce risk.

- Supports Android and Apple phones
- Remote test administration or on-site
- Tests take 10 minutes
- Results in 5 minutes
- Noninvasive
- Affordable
- Easy-to-Use

Screen job applicants or employees with 84 to 89% accuracy

## Recruiting

Make better hiring decisions. Evaluate the truthfulness of applicants and avoid risk in onboarding.

## Employee Development

Identify talent with the highest potential for promotions and career development using reliable data.

## Organizational Culture

Develop a culture of integrity and reduce internal conflicts.

## Fraud Prevention

Protect your organization by screening out applicants who will compromise integrity.
